ABSTRACT

Three tables present figures on public school enrollment in 1992-93 and 1993-94 in the United States by state and county. The first table, "Public School Enrollments," gives a comparison of total state enrollments for the two years. "County Enrollment Increases" compares increases in county enrollments (1,000, students or more) arranged in descending order by variance. "County Enrollment Variances" presents county enrollment variances (1,000 students or more) arranged in descending order of variance within each state. (SLD)
